Career Objective

Aspiring Information Technology Engineer with a passion for solving real-world problems through intelligent systems. Proficient in Python and well-versed in machine learning, deep learning, and IoT technologies. Adept at building scalable projects and deploying smart solutions. Recognized for strong analytical thinking, teamwork, and a continuous learning mindset.

Education

B.Tech. - Information Technology	2026
Vidya Jyothi Institute of Technology	CGPA: 7.66
Intermediate	2022
NTR Junior College	Percentage: 6.94
SSC	2020
Challenger International School	Percentage: 9.0

Projects

Voice-Based AI Assistant Jan 2025 - Jul 2025

Built an offline-capable voice assistant using Python, Flask, SpeechRecognition, and gTTS to perform tasks like app launching, file searches, math solving, and web searches. Integrated real-time speech recognition and TTS for efficient, hands-free interaction with enhanced privacy.

Restaurant Table Booking System (Django) Apr 2024 – Jul 2024

Developed a Django-based web app for restaurant table reservations with features like booking by size, meal plan, and time, along with booking history. Implemented admin dashboards for approval and management, ensuring streamlined and error-free reservations.
